Positive Cures by Little Pills. They also relieve Dyspepsia, Indigestion and Bowel Complaints. A perfect remedy for Biliousness, Nausea, Dizziness, Headache, and all the ailments of the Liver. Sold in all drug stores. Price 25 cents. CARTER MEDICINE CO., Proprietors, New York.

TOWN AND COUNTRY.

By Saturday night, the end of the track of the Fort Worth and Denver will be at least 25 miles from Fort Worth.

The grade of the Southern Kansas from Iowa into the Panhandle is now finished to about the center of Carson county.

Colonel Morgan Jones said yesterday that the junction of the Gulf, Colorado and Santa Fe, and the Atchison, Topeka and Santa Fe, would be made in about two weeks.

It is current at Tyler in Smith county and generally believed there, that work will begin very soon on the extension of the St. Louis, Arkansas and Texas from Chandler to Fort Worth.

Letters have been sent to Greenville, Plano, Nevada and Grapevine asking the committees of those places to name the day to meet here. It was about settled last night that they would be here tomorrow.

There is every indication that in a few days the Texas and Pacific will have a fine flow of artesian water from its well near the round-house. Mr. Hupp keeps hard at work superintending the putting down of the piping.

Evidence is accumulating that the Chicago, Rock Island and Pacific is preparing for active building in Texas, and the same evidence shows that one line will go to Wichita Falls and Cisco and the other come to Fort Worth.

The citizens living near Acton, in Johnson county, are anxious to have a depot located on the line of the Fort Worth and Rio Grande, and expect to build up quite a settlement near by. Acton, situated in a magnificent country, is about eight miles from the road.

The line of the St. Louis, Arkansas and Texas, as run, passes through the village of Bransford, this county. With the cotton belt built from Grapevine to Fort Worth, rail communication with all the towns in Tarrant county, with but few exceptions, will be secured.

Considerable work is being done by the Texas and Pacific in its yard here. Yesterday a force of twenty hands was at work on the side tracks straightening, leveling, ballasting and putting in new ties. The Texas and Pacific is rapidly being brought to the top notch in all departments.

The Fort Worth and New Orleans officials are rapidly making arrangements for greatly enlarging the yards of the road in this city. The business being done by this road is crowding the yards more and more daily. The additional room secured, although considerable, was badly needed.

The Colorado and Texas Construction Company will build the Denver, Texas and Fort Worth from Pueblo to the Texas line, while the Panhandle Construction Company will build the Texas, Fort Worth and Denver to a connection. All that General Dodge and Governor Evans have worked for is about to be fully realized.

It is settled on excellent authority that the St. Louis and San Francisco will at once build from Tulsa to a connection with the Chicago and North Western, which will give Galveston and Fort Worth another direct line to St. Louis. Fort Worth generally gets connection with desirable lines before any other city in the state.

No matter where the cars are built, Mr. Goetz says the headquarters for his company for the south and west will be at Fort Worth, and the cars run on the western lines will be operated from this city. But Fort Worth citizens have made some effort to secure the building of the cars here, and will continue to make efforts in that direction.

Fort Worth as a distributing point has no superior in Texas. The Flint and Walling Manufacturing Company, makers of wind mills, which located a branch here about a year ago, have been forced to add 10,000 feet to the grounds they occupy. Other firms are getting out of the town might take a profitable hint from this fact.

A strong effort is being made by the friends of Mr. T. T. D. Andrews to have him appointed to the place made vacant by the death of the late Colonel C. Cunningham, agent of the Bureau of Animal Industry. Telegrams have been sent to Senator Coke and Commissioner Colman, urging Mr. Andrews' eminent fitness for the position.

Major Badger, a wealthy citizen of Barnett, says these people are very desirous of having a road connecting the Austin and Northwestern with this city. Lampasas, Hamilton, Dublin and Stephenville are all desirous of adding the road which has been discussed by the presidents of the Austin and Northwestern and Fort Worth and Rio Grande.

The engineers of the St. Louis, Arkansas and Texas have begun the work of revising their lines between Plano and Fort Worth. It is said that the second line will shorten the distance between that

Plano and Grapevine, and also between Grapevine and Fort Worth. By the new line the distance between Texas and Fort Worth will be forty-seven miles shorter than by any other route.

The building of the 'Frisco from Paris, Ala. Greenville, to a connection with the Houston and Texas Central at Roberts, means another road for Fort Worth to St. Louis.

A prominent merchant of Fort Worth said yesterday he had good reason to believe that the 'Frisco and the Central together would run through passenger trains from St. Louis to Fort Worth as soon as the gap was filled in.

Day by day the Texas and Pacific is improving. Receiver Brown and his assistants devoting their full energies to the work. Steel rails are going down at a lively rate on the Rio Grande division, the roadbed is being improved, artesian wells are being drilled, new rolling stock is being put in use and general improvement is the order of the day. It will not be long the Texas and Pacific will be the great all-steel-across-Texas road.

Colonel Peter Smith is in receipt of letters from Greenville, Plano, Nevada and Grapevine, saying committees from each place will meet in Fort Worth Friday or Saturday in regard to securing right-of-way for the St. Louis, Arkansas and Texas. The greatest interest is being taken in securing this road, the people being enthusiastic over the prospect of another line to St. Louis, and that the famous 'Cotton Belt.'

The first coaches for the Fort Worth and Rio Grande have reached Fort Worth. They are elegant in every particular. The coaches proper are numbered 1 and 2, and the baggage, mail and half passenger coach in one is numbered 51. The painting is different from that of any of the coaches at present seen in Fort Worth, being a dark red, and is said to be the same color used by a Michigan line and the St. Louis and San Francisco. The coaches are ready for service, and that excursion will probably soon take place.

D. H. Breck, a well-known young Fort Worthian who has been with the construction forces of the Fort Worth and Rio Grande for several months past has returned to the city. He says the work given by the company to the farmers was a great boon to them, for in many cases their families would have suffered but for the money earned in this way. It was a common thing, he says, to have men at work come to the contractor and ask for a time check before pay-day, saying the taxes on their little farms were due and they had no other way to pay. In every instance the kind-hearted contractors would give the checks as requested and make the farmers happy.

Mr. Beck says the Gazette was read in the railroad cars the evening of the day of publication and the men kept thoroughly posted on events of interest in the city election.

Captain E. B. Daggett and City Engineer Kirk returned from their visit to the camp of the St. Louis, Arkansas and Texas engineers yesterday evening. They say the corps is still in camp at Grapevine, it having been decided to run another line from Fort Worth to Fort Worth one and a half to two miles east of the line located to Bransford which it is thought will prove a better and more direct line. If the second line is the one selected on which to build the road will very likely pass through both Bedford and Big Spring. Captain Daggett says that Assistant Chief Engineer John Witt, in charge of the party, has been quite sick for several days and went home for treatment, but it was thought he would be back by today. He said the work of the company designed to complete this line as quickly as possible and take the field on the Chandler-Fort Worth and Gatesville-Brownwood lines, which the same company would like to have finished before the meeting of the directors at Texarkana on May 1. All but five or six of the party now at Grapevine will likely start for the other work in a few days. Captain Daggett and Mr. Kirk both think the camp line from Grapevine the better of the two.

Mr. E. B. Goetz, whose patent sleeping and reclining chair has been mentioned in these columns, has received lately flattering offers from Kansas City, Memphis, Little Rock and Sheffield, Ala., to establish his headquarters and manufacturing the cars at these places. Sheffield's offer was especially liberal. Mr. Goetz is heart and soul a Fort Worth man and has not as yet accepted any of the offers made. In a conversation yesterday he said he had met considerable encouragement in this city, especially from Morgan Jones, President of the Fort Worth and Denver, who had shown a lively interest in the enterprise and signified a willingness to subscribe to the capital stock, other citizens and railroad men had also agreed to take \$1000 and \$2000 of the stock. In compliance with the letters and telegrams from friends in Washington and New York urging him to come on and form his headquarters here, he said before leaving for Washington. He said before leaving that the location of the works was still an open question and would be even after the company was formed. Mr. Goetz says he asks no bonus and if Fort Worth will aid by taking stock according to her size this city will have the first opportunity to secure the plant. Whether the cars are built here or not Mr. Goetz says Fort Worth will be headquarters for the south and west, the cars being operated from here. Mr. Howard Tully, who has taken an interest in the matter, will be informed by Mr. Goetz of the progress of the company in the east. It is probable that two or more cars will be built at once at the St. Charles works, near St. Louis, and placed in daily use on some Texas or western road that a practical demonstration of its good points may be made.

Good Results in Every Case.
D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so, and was entirely cured by use of a few bottles. Since which time he has been in the best of health. This is the experience of thousands whose lives have been saved by this wonderful discovery. Trial bottles free at H. W. Williams & Co.'s drug store.

A Chance to Place Your Mother.
One of the finest ranches in Texas, stocked with the graded cattle, for sale. Address W. G. Salmon, Spanish Fort, Montague county, Tex.

Those who are inclined to biliousness, will find Morrie's Cascara in unfailing remedy for its eradication.

Every man, woman and child that will call and register their names from now until May 15, will get a chance in a beautiful \$1000 picnic.

W. A. HOFFMAN IMPLEMENT CO.

Cathartics or purgative pills do more harm than good. Carter's Little Liver Pills do only good, but a large amount of that. Only one pill a dose.

AND STILL THEY COME.

A Company Organized to Establish a First-Class Tannery in the Fort.

THE GAZETTE has heretofore alluded to samples of leather made in the Fort which have been submitted to its inspection. The comments made and the attention drawn to this particular branch of industry has led to the taking of steps to form a joint stock association, for the purpose of manufacturing leather of all kinds in this city. It is proposed that this association shall be composed, for the greater part, if not exclusively, of young men, working for a salary. If any others are admitted they will be restricted to one share only, that no controlling interest may pass into the hands of any one individual.

The theory is to interest a certain number of young men working for a salary to invest a certain amount each month in the stock of the association, thereby making, as it were, a savings bank to that extent. The present plan will be utilized and the money paid monthly, rather than in very large amounts, as in the case of the tanning and enlarging its facilities. That it will be a paying investment has already been proven. That good leather can be made here at a profit is in evidence.

The samples speak for themselves and the profits can be shown by the books. It is but one of many opportunities that present itself for the investment of money that will repay in largely increased per cent. Of course THE GAZETTE cannot speak of the details of the plan further than as to what has been given it by its projectors, but the young men of the city seem to be taking kindly to the project, and there is no doubt it will be pushed to a successful issue in the immediate future.

"One Nail Drives Out Another."
Is a French saying that finds explanation in the way one disease will substitute itself for another. It is a fact that many cases of Liver disease, for instance, will soon induce blood disorders, throat ailments, skin eruptions and eventually, because of impoverished blood, consumption itself, unless, indeed, it be treated in its infancy and early progress, by Dr. J. C. Williams' Pink Pills for Pale People, which acts as a specific in these ailments, and which is a rapid cure by its powerful alternative action upon the great organs of the body.

The Colored Folks' Fair.
A large audience of colored people assembled at Daggett's hall Friday night in response to notice of a mass-meeting in behalf of the Colored Lone Star State Fair Association. Among the prominent colored men who made speeches were Rev. W. E. Reed, Rev. L. J. Jordan of Waco, Professor H. H. Butler, D. H. Jack, Daniel Johnson and others. The general sentiment favored the enterprise, and it is safe to say from the character of the men at the head of it, that the fair will be a success.

Sister Mary Alexis, superior of the St. Louis Hospital, under the care of the Sisters of Charity, expressed her admiration of the Gazette's exposure of the bogus terms of its efficacy, and recommends it as a reliable medicine.

Constipation superinduces the agony of that disease so prevalent, known as Piles. This can be cured and prevented by taking Morris' Cascara.

County Commissioners.
This court met in regular session Monday, but transacted little business of public interest. Certificates of moral character were issued to Messrs. R. P. Willing and John T. Giococino, based on their intention of entering the practice of law. A statement was received from W. E. Brothers, agent for the county school lands in Wichita county, showing that he had disposed of one section for \$3520 and had applications for several more sections.

If your complaint is want of appetite, try half a wine-glass of Angostura Bitters half an hour before dinner. Beware of counterfeits. Ask your grocer or druggist for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons.

The correct way, is to buy goods from the manufacturer, when possible. The Elkhart Cigar and Harness Co. of Elkhart, Ind., have no agents. They make first-class goods, ship everywhere, privilege to examine. See advertisement.

Beneath the Soil.

The large number of friends and acquaintances who followed the remains of the late Colonel S. P. Cunningham to their final resting place abundantly attested the high esteem in which this honored gentleman was held by the community. The sympathy for his bereaved family is heartfelt and universal, as is the deep regret for the loss of one of Fort Worth's noblest and best citizens.

\$500 Reward.

For a remedy that will cure as bad a case of piles as Dr. Williams' Indian Pile Ointment. At drug stores, 10 cents and \$1.

SUCCESS IN SIGHT.

The Alliance Cotton Yard Project Taking Favorable Shape.

There was a splendid attendance at the Tarrant County Farmers' Alliance, which met at Daggett's hall yesterday, no fewer than forty sub-alliances being represented. After the routine work was ended the question of establishing the Alliance cotton yards in this city came up for discussion. The report of the committee appointed to see after that matter was heard with interest and was very gratifying to the Alliance, showing as it did, the liberal spirit that prevailed among the business men of Fort Worth in lending substantial support to the undertaking. The following resolutions were unanimously adopted:

Be it resolved by the County Alliance of Tarrant county, Texas, now in session in the city of Fort Worth, on this, the 8th day of April 1887:

1. That we receive with pleasure the report of our cotton yard committee appointed at our last quarterly meeting, and regard the response of the citizens of Fort Worth, in a donation to that enterprise of \$1241, as an omen of success.

2. That we discharge said committee and create an executive committee consisting of three members of the alliance, who shall act as trustees, and who shall be clothed with authority at their discretion to exercise the following powers, to-wit:

1. To obtain from the state of Texas a good and sufficient charter, issue to them, and in their name and their successors.

2. That said trustees shall immediately take charge of the subscription list donated by the citizens of Fort Worth and collect the same as they shall have need, and receive additional means from any source whatever, and apply the same for the procurement and equipment of a cotton yard in the city of Fort Worth.

3. Resolved, that said trustees have full power and authority to receive all reports of other committees appointed by

MOST PERFECT MADE
Prepared with strict regard to purity, strength and uniformity. Dr. Price's Cream Baking Powder contains no alum, arsenic, or any other poisonous or deleterious substance. It is pure, and its flavor is delicious. PRICE BAKING POWDER CO. CHICAGO AND ST. LOUIS.

The Tarrant County Alliance during vacation, and on a true and correct account of all such reports, and make a true and correct return of all their proceedings at each term of the county alliance.

4. Resolved, that all information asked by any alliance of said trustees as to their plans and progress shall be promptly given them.

5. Resolved, That the books of said trustees shall be open and subject to inspection at the office of the Tarrant county at any time by any member of the Alliance.

6. Resolved, It shall be the duty of said trustees immediately after their appointment to select from their number a treasurer who shall give a good and sufficient bond in double the amount likely to come into his hands, which bond shall be made payable to the president of Tarrant County Alliance and his successors in office.

E. Newton, R. H. King and J. S. Morris were appointed as the executive board, and the selection of treasurer will be made in due time.

An End to Bone Scraping.
Edward Shepherd of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years, my doctors told me I would have to have the bone scraped or leg amputated. I used, I tested, three bottles of Electric Bitters and seven boxes Buckle's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at 50 cents a bottle, and Buckle's Arnica Salve at 25 cents per box by H. W. Williams & Co.

Rural Lawlessness.
A night or so ago the store of Mr. Wm. Neil, at Birdville, was visited by burglars, who perhaps got scared before finishing their work and went off after breaking up one of the windows. The same night at Bedford, Mr. Mark Arthur had his store broken into by some incendiary, losing some 200 bushels of corn and 2000 bundles of oats by the flames.

A Life Made Miserable.
By dyspepsia is scarcely worth the life. A case of this kind, increased action of the heart after eating, sinking in the abdomen between the shoulders, prior to Hockett's Stomach Bitters, and pain in the side. These are the symptoms of this harassing complaint. Two things only are these useful for the cure: Hockett's Stomach Bitters, and a change of diet. A statement was received from W. E. Brothers, agent for the county school lands in Wichita county, showing that he had disposed of one section for \$3520 and had applications for several more sections.

Tarrant's Tax Payers.
"Of the 1975 farmers in Tarrant county who render property for taxation," said Tax Collector Murray to a GAZETTE man yesterday, "113 have got their receipts from this office."

"Is that a pretty good showing?" "Excellent, considering the drouth this year; and among the 122 who haven't settled are some of the largest of the country tax-payers, men who pay in over \$100 yearly. The time for our road collection, however, is drawing nigh, and all who have not paid up by the 15th inst. will have costs to liquidate as well as their taxes."

We would be pleased to know of a man or woman who has never had headache or been subject to constipation. As these seem to be universal troubles a little advice may be in order. Why should persons drain their stomachs with nauseating purgative pills, etc., which sicken and debilitate, when such a pleasant and reliable remedy as Pilets' Bitters will act mildly and effectively on the liver, kidneys, stomach and bowels, and at the same time tone up and strengthen the system, causing headache, constipation and all such distressing evils to quickly disappear.

More Fence Cutting.
The knights of the nippers seem to have not altogether disappeared from the land, as Mr. Arch Earl, a substantial farmer living near Birdville, can testify. His pasture fence has been repeatedly cut of late by unknown parties. Last Thursday night the miscreants cut it in more than a score of places. Their act was not only lawless but mean to a degree, since the fence enclosed but a small piece of land and does no inconvenience to any one. From the nature of the case fence cutting is a species of crime, the perpetrators of which are extremely hard to detect, unfortunately for the victims of their malice and the welfare of society.

One Cent Invested
In a postal card on which to send your address to Hallett & Co., Portland, Maine, will, by return mail, bring you a pleasant surprise. Work that both sexes of all ages, can do and earn money, wherever they are located, earning thereby from \$25 per day and upwards. Some have earned over \$100 in a single day. Capital not required; you are started free.

Heavy Suits.
Frances T. Wilson has brought suit against the Missouri Pacific Railway Company for \$10,000 for personal injuries. Her petition sets forth that she is fifty-eight years of age and in poor health; that on January 21, 1887, she bought a ticket over defendant's road from Whitesboro to Millsap. She requested the brakeman of the train to assist her in changing cars at Fort Worth, and was told that she must do it all right. On reaching Fort Worth she remained in the coach until all the other passengers had left it, and then, having no one to assist her, proceeded to get out alone. In doing this she missed her footing in the dim light and fell to the platform, breaking and crushing an ankle. The accident is charged to the negligence of the railway company, and the compensation above named is prayed for.

Joseph R. Stephens, Thomas P. Stephens and Isaac E. Stephens vs. A. M.

Randall & Chambers Co.

GRAND OFFERING OF NEW GOODS THIS WEEK!

To Crowd Our Store with Customers we Offer the following SPECIAL BARGAINS, and would say that no such Value can be found elsewhere. Be on hand early to secure first choice.

36 pieces 34 yards long at \$1.00, worth \$1.50.
- Bargains**
In Newport Ties and Slippers.

Randall & Chambers Co.

Britton and the Espuela Land and Cattle Company. The petition is of extreme length and embraces some land and cattle transactions of no ordinary magnitude. The Espuela Land and Cattle Company, of which the defendant, A. M. Britton, is president was organized with a capital stock of \$1,000,000. The company owned 45,000 acres of fine grazing lands, besides a vast amount of leased lands. Its ranch equipments and outfits are valued in the petition at \$150,000, and besides the cattle, estimated at 60,000 head, horses to the value of \$25,000. The plaintiffs sue to compel A. M. Britton to render an account of his trust and management of the concern, particularly to account for the profits and moneys claimed to have accrued. It is charged that the original Espuela Company was sold out in 1881 to a London company, and plaintiffs, as stockholders in the Texas company, pray that the full amount of gains due them be paid over. Plaintiffs also ask for an injunction restraining the said A. M. Britton and the Espuela Company from issuing in any way the ordinary shares of the English Company. The final clause of the petition prays for the appointment of a receiver to take charge of the business.

Advice to Mothers.
Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhea, 25 cents a bottle.

A GIN PROBLEM.
John Plowman Tells "How Men Drink Farms" To the Editor of the Gazette.
This problem beats your "wine problem" clean out of sight:
"My numerous friends with the chromatic nose, when you are sipping up the sugar in that 10-cent glass of gin, let me give you a problem to wash it down with. You say you have for years longed for the free, independent life of the farmer, but have never been able to get enough of money together to buy a farm. But that is just where you are mistaken. For several years you have been drinking a good improved farm at the rate of 100 square feet a gulp. Figure it out your self. An acre of land contains 43,560 square feet. Estimating land at \$4.50 per acre, you will see that is just 1 mill per square foot, and is just 1 cent for ten square feet. Now,

pour down the derry dose and imagine you are swallowing a strawberry patch. Call in five of your friends and have them help you gulp down a 500 foot garden. Get on a prominent spot, and see how long it requires to swallow a pasture large enough to feed a cow—twenty cows. There's dirt in that glass of gin—100 square feet of good rich dirt, worth \$45.56 per acre. A WOMAN.

TO REPETAL AN AMENDMENT.
CITY OF MEXICO, April 13.—T. B. Conery, the newly appointed secretary of the United States Legation here, has arrived from Vera Cruz.

A joint committee of Congress has reported in favor of the repeal of the amendment to the constitution forbidding the immediate re-election of the President, and it is generally believed in political circles that the measure will pass through Congress and go to the state Legislatures for their ratification.

El Partido, Liberal organ, which reflects the views of the administration, takes significant grounds regarding the proposed change and cautions Congressmen not to act upon any supposition as to the sentiments of President Diaz, but rather to act upon their own judgment as to what is the best policy for the nation. President Diaz absolutely refuses to commit himself in the matter and all statements regarding his attitude are mere guesses.

Congress will again take up the repeal of the duties on printing paper, which weighs heavily on the advancement of native literature. Paper duties are not affected by the revision of the tariff, which goes into effect on July 1.

DEALERS IN
